The Eagle Cane Project was introduced in Maine in 2008. A collaborative effort involving Maine Woodcarvers Association and Maine Woodturners, the aim of the project is to present quality, hand carved and highly personalized Eagle Head Canes to Maine's disabled veterans in recognition and appreciation for their service to our country.

Using tapered dowels purchased locally (Peavey Manufacturing in Eddington, Maine), Maine Woodturners members then turn the tenons and adaptors.

Finally the carver assembles the cane, adding the hand carved eagle head, attaching replicas of the requested medals and ribbons, adds the personalization and applies a finish. Whenever possible, canes are presented in person, accompanied by a certificate of appreciation listing the names of all the individuals who helped in creating the cane.
